

New PremiumPACKs

GB Remanufacturing is pleased to announce the addition of our new PremiumPACKs for Dodge/RAM 5.9L Cummins, Ford 7.3L Power Stroke, and GM Duramax 6.6L LB7 engines.

100% tested and backed by our industry-leading 24-month warranty, GB Remanufacturing's PremiumPACKs offer high quality products inside and out and are competitively priced to ensure that you receive the best value. The Dodge/RAM 5.9L and GM Duramax 6.6L LB7 PremiumPACKs also include critical parts for a trouble-free repair that saves you both time and money.

With easy access to US-based diesel technical support and comprehensive technical bulletins and tips included inside the box, GB Remanufacturing PremiumPACKs are a game-changer for technicians when it comes to getting diesel fuel injection jobs done right the first time.

Premium Remanufactured Diesel Fuel Injector

GB Remanufacturing is pleased to announce expanded coverage for the RAM 6.7L Cummins Pickup with the release of a new premium remanufactured diesel fuel injector.

The premium fuel injector for the 2013-2018 RAM 6.7L Pickup features 100% nozzle and solenoid replacement. All control valves are independently tested and replaced as required.

GB Remanufacturing's premium diesel fuel injectors are always remanufactured using OE-quality components. Each unit is 100% flow-tested at multiple operating conditions at full-rated pressure to ensure it meets or exceeds OE specifications.

NEW DIESEL PRODUCTS

Dodge/RAM 5.9L Cummins	
Application	Injector PN Six-Pack
2005-09	712-5026PK
2004.5 325 HP	712-5026PK
2004-2004.5 235 HP & 305 HP	712-5016PK
2003	712-5016PK
Six-Pack includes 6 injectors and 6 fuel inlet tubes. Fuel inlet tubes must be replaced at the time of injector replacement. Fuel inlet tubes cannot be reused due to previous torque and because the edge filter inside the tube can contaminate the newly installed injector.	

Ford 7.3L Power Stroke	
Application	Injector PN Four-Pack
2000-03 Excursion	722-5044PK
1999-03 E-Series, F-Series	722-5044PK
1997-99 E-Series, F-Series	722-5024PK
1995-96 E-Series	722-5014PK
1994-97 F-Series	722-5014PK
Four-Pack includes 4 injectors.	

GM 6.6L Duramax LB7	
Application	Injector PN Four-Pack
2001-04	732-5024PK
Four-Pack includes 4 injectors and 4 fuel injector high pressure lines (one each of 7-005, 7-006, 7-007 & 7-008). High-pressure fuel lines must be replaced at the time of injector replacement. The number one cause of injector failure on Duramax LB7 engines is contamination transfer between the high-pressure fuel lines into the fuel injectors. Replace the fuel lines to prevent premature injector failure.	

RAM 6.7L Cummins	
Application	Injector PN
2013-2018 Pickup	712-505

Company News

GB Knowledge Center

This year, GB Remanufacturing developed and released its Knowledge Center. The online tech resource is designed for automotive repair shop owners, technicians, and counter professionals looking to deepen their understanding of fuel injection systems, diagnostics, and evolving technologies. The Knowledge Center is easily accessible at www.gbreman.com/knowledgecenter.

New Gasoline & Diesel Catalogs

GB Remanufacturing is pleased to announce the release of our 2022 Gasoline Fuel Injection and 2023 Diesel Catalogs. Both catalogs include new products and expanded application coverage. GB Catalog information is available in industry standard ACES and PIES data formats. Web users can also access vehicle lookup and application information via the website at www.gbreman.com.
