

Ford 7.3L Power Stroke Injector Identification

An easy way to identify which 7.3L Ford Power Stroke injector you need is by using the solenoid code. This code is two letters stamped on top of the injector's solenoid which is mounted on top of the injector. There are five different solenoid codes available: "AA" through "AE". Refer to the chart below for GB part numbers and application information.

GB 7.3L Power Stroke Injectors	
Solenoid Code	GB Part Number & Application
"AA"	722-501 (1994-97 F and E Series)
"AB"	722-502 (1997-99 F and E Series)
"AC"	722-503 (International T444E Only)
"AD"	722-504 (2000-03 F and E Series)
"AE"	722-505 (2000-01 F and E Series)

Note: Use this as a guide only. Always consult GB's catalog for specific vehicle application information.

Note: Always consult the vehicle specific service procedures which may contain important additional information.
